INTRO

The cryptocurrency industry as a whole has experienced tremendous growth, driven heavily by the entry of institutional investors who embrace Bitcoin due to its stockpiling of real estate of value.

Looking at the global numbers:

1. The number of cryptocurrency users reached 300 million in 2021.
2. The Metaverse industry is expected to expand into virtual reality (VR) and non-fungible token segments (NFT). According to Strategy Analytics (Global Research Company).
3. The global metaverse market valuation is expected to reach \$280 billion by 2025

In this case, the web 3.0-based HIBA was born.
